

SIHE WOOD

Your Wooden Floor collection

SIHE WOOD is a leading Chinese manufacturer specialized in single-strip 3-layer & multi-layer engineered wood flooring, especially modular design wood tiles, as well as solid bamboo flooring. The company is export oriented and managed up to international quality standard.

Being a young, fast-growing, dynamic and dedicated joint venture company, conveniently located in the suburb of Shanghai, SIHE WOOD has become a major player in the manufacturing and sales of engineered wood flooring all over the world. Professional sourcing, advanced machinery, skilled technologies and overall quality control integrate into the superior quality of SIHE WOOD engineered wood flooring. Our team is devoted to offer you professional services and satisfactory solutions.

Oct 2007, SIHE WOOD went into a strategic partnership with Legend Capital, a VC vehicle of Legend Holdings Limited in China, known for its IBM acquisition and Lenovo brand name. The new investment from this partnership has further strengthened SIHE WOOD's capability for future growth and long term relationships.

This year we will concentrate strongly on our new collections Manor House and Cosmo, new investments have been done on top level machinery to make sure that these 2 collections can meet all your quality and shipping requests.

Happy to see you all in Shanghai!!

Yours sincerely,
Franky Helmons
Shanghai New Sihe Wood Team

Oak, Ceruse

Oak, Twilight Grey

Oak, Metal Grey

Every picture tells a story Every story stands for FLEXIBILITY

Wide planks for flexible applications

- > Your choice of structure: HDF, plywood or spruce core
- > Your choice of profile: T&G or click (Valinge 2G or 5G LOC)
- > Your choice of colours: same look possible on different collections

Stability, smooth click profile, easy installation
No pattern repeat, real wood look and feel
Optional heavy duty finishes for better resistance

Vogue

189*10/1mm

Sliced top for better yield and cost efficiency
Still a "parquet" and re-sanding possible with 2.5mm top layer
Stability, easy installation with your choice of T&G or LOC

Cosmo

189*12/2.5mm

Sophisticated criss-cross three layers structure ensures stability and resistance
Saving 75% of hardwood resources while keeping the beauty of noble wood
All real wood parquet with core & back layer from sustainable plantation forest

Basic

189*15/4mm
